# THE ELIZABETH NURSERY CO.

## ELIZABETH, N. J.

\*\*\*\*\*

Office: WILDER STREET. Telephone: ELIZABETH 1742.

We have removed our office to our new property on Wilder Street, half a block from North Broad Street. Take Lyons Farms cars, which pass Wilder Street.

Customers are requested to state mode of shipment, express or freight, and by what route. When none is given, will forward to the best of our judgment. In no case do we assume responsibility after goods are shipped, unless for our own mistakes.

**TERMS**—Cash with order from unknown parties, or satisfactory reference. Packing will be done in the best manner, in bales or boxes, at the cost of the purchaser, but no charge will be made for delivery to the railroad.

### GUARANTEE.

While we exercise the greatest care to have all trees, shrubs and plants sold by us true to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise, we do not give any warranty, expressed or implied, with respect to them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

All claims for errors or deductions must be made immediately upon receipt of goods.

We cannot fill long lists for one or two of a kind at hundred rates; will charge at single rates; 50 of a kind at rate of 100, and 500 of a kind at rate of 1000.

Samples will be charged at hundred rates.

# NEW ROSES

**HUNTER.** A new variety of the well-known Rugosa class; of rapid growth, with very dark, glossy, green foliage; fine bud, very much like the Jacqueminot rose, opening up to a semi-double flower of a bright red; very fragrant; followed by an abundance of large berries of a reddish orange color. \$1.50 each.

**NEW PINK WICHURIANA. LYNCH'S HYBRID.** This new rose is the offspring of Rosa Wichuriana and General Jacqueminot, and, while it retains the healthy growth and waxy foliage of the Wichuriana, the Jacqueminot has added to its strength in such a degree that it will attain a height seldom reached by any climbing rose in addition to giving it a pure pink color. 50 cents each.

# ROSES

Where one of a kind is wanted the price will be 15 cents each; where 50 are wanted and not over 10 varieties, the 50 will be furnished at the 100 rates given.

Two years, strong; varieties marked B are budded only.

No. 2 grade will be carefully selected, healthy plants with good roots and tops, and will be slightly under our regular No. 1 grade in weight and height. Prices quoted are per 100.

Phalaris Arundinacea Variegata . . . . .	08	60	3 00

We can furnish large clumps of all the above grasses excepting Arundo Donax Variegata. Prices on application.

# HARDY HERBACEOUS PLANTS

The most of our herbaceous plants are field-grown, not divided so that one has to have a magnifying glass to see them. We planted out nearly 100,000 from two-inch pots last Spring which have made a fine growth; most of them bloomed last Summer; these will be sent out just as they grew; nothing finer in the United States.

	Each	10	100

# NEW JERSEY STATE BOARD OF AGRICULTURE

## OFFICE OF THE STATE ENTOMOLOGIST

NEW BRUNSWICK, N. J., September 30, 1902.

**THIS IS TO CERTIFY** That I have this 30th day of September, 1902, caused to be examined the shade and ornamental nursery stock growing on the Elizabeth Nurseries, Elizabeth Nursery Company, Proprietors, at Elizabeth, Union County, New Jersey, and have found the same apparently free from San Jose Scale and other dangerously injurious insect pests; also, that the shade and ornamental stock examined was in an apparently healthy condition.

This certificate is good only for the shipping season of: the Fall of 1902 and Spring of 1903, and covers only stock actually grown on the nurseries examined.

JOHN B. SMITH, State Entomologist.
